ecmanage

## It's online, it's easy

Wardrobe management system

For workwear, corporate clothing, PPE, and technical tools

Our solution

Ecmanage is Netherlands' most advanced wardrobe management system. Using Ecmanage, wearers can easily order workwear, company clothing, personal protective equipment (PPE), and/or technical tools. Our system is currently used by over 120 companies and various governmental institutions, and there are 500,000+ users ordering through Ecmanage.

Advantages of Ecmanage

- > User friendly
- > Cost saving
- > Less administration
- > Completely online, also available with a native app
- > Wearers order themselves
- > Order within budget or with validations

- > Integrates with any ERP system
- > Fully customisable
- > Instant reports/overview
- > Unlimited number of users
- > Implement your own corporate identity
- > Available in multiple languages (10+)

Ecmanage's wardrobe management system allows companies in multiple market segments to take the ordering process to the next level. Users can order their workwear within three clicks, which enhances the ordering experience of the wearers. This results in a reduction of internal hidden costs.
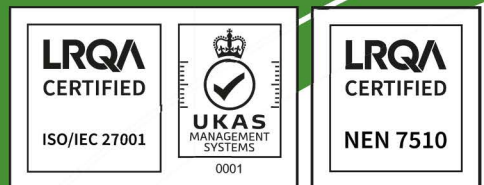

For whom?

There are many users of Ecmanage, including workwear and PPE suppliers, technical wholesalers, and large end users/governments. Ecmanage includes a wide range of modules as standard. Besides these standard modules, we also offer various additional modules to meet specific customer requirements. In this regard, the Native App is an excellent example.

Security

Ecmanage is the only wardrobe management system that is ISO 27001 and NEN 7510 certified. This means that we comply with all applicable laws and regulations regarding the protection of personal data. The most valuable asset you have are your customers, so a reliable system is a must.

As part of our security policy, we also have our system pen-tested regularly by a certified company.

LRQA CERTIFIED
ISO/IEC 27001

Establishing your own brand identity

It is possible to create customer environments with Ecmanage's wardrobe management system based on your own house style or on the look and feel of your customers. This ensures the continuity of the corporate identity. Furthermore, you can choose a custom URL and customize the e-mail templates.

Integrations

Ecmanage is able to realize an order-integration with your ERP-system, which allows the orders to be forwarded immediately and processed as usual. This eliminates the need for manual actions to copy orders. There are currently more than 25 integrations between Ecmanage and various ERP systems. Here are some examples:

ORACLE

SAP

Microsoft Dynamics 365

e·conomic by VISMA

Native app

Ecmanage's native app allows wearers to access the online web shop of the clothing supplier directly through the app. Using our native app, your customers can place orders quickly and easily through their mobile devices.

The app is available on the App Store and Google Play Store and features advanced login features, such as Face ID/Touch ID. Due to the app's ease of use, ordering will become more frequent because of the lower barrier.
